$50k Strike Labs National Security Innovation Competition

Identify a solution to a tangible problem you have. We will dedicate $50k of resources to build your solution for you.

With the goal of promoting a more innovative culture in national security, the $50k Strike Labs National Security Innovation Challenge is designed for all ranks and grades from national defense and intelligence to clearly identify a specific pain point they face, and collaborate to produce a web-app solution.

- NAME: $50k Strike Labs Security Innovation Competition
- OPEN TO: Those who are actively serving—as well as the National Reserve and Guard—in the United States Department of Defense or Intelligence Community
- PRIZE VALUE OFFERED: $50,000
- TYPE OF COMPETITION: Problem & Solution Identification
- PARTNER AGENCIES: None - there is no affiliation with any national agency
- DEADLINE: Earliest of 50 entries or 03/31/2020 @ 5pm ET

How To Enter

Each submitter is required to enter their submission via the submission forms available at www.strikelabs.io/ or https://forms.gle/UVvzVuSnGHgRP1GA7 prior to the deadline.

Winner

The single winner of the $50k Strike Labs National Security Innovation Challenge will have their solution built for them by the Strike Labs LLC team who will commit up to $50k of development work.

About Strike Labs

Strike Labs consists of seasoned entrepreneurs and technology specialists.

We are focused on solving very hard big data problems quickly, or building niche beyond state-of-the-art cloud based web app solutions for the government by implementing published academic research yet to be productized.

The Strike Labs team implements practical solutions that would otherwise overwhelm larger, more bureaucratic organizations, and are specialists in predictive analytics, encryption, ADS-B signal, and implementing unsupervised learning AI agents (AI/ML).
